

**Summary of Demand Resources Group Meeting**  
**May 3, 2006**

The Demand Resources Group (DRG) met on May 19, 2006 to: (1) discuss the proposed Transition Period rules for Demand Resources, and (2) hear presentations on the ICAP Tag and load reconstitution processes. I particularly want to thank Ms. Carmel Gondek of NU and Ms. Shannon Hann of ISO-NE for their presentations on the ICAP Tag and load reconstitution topics. A sub-group of the DRG will be meeting via conference call at 9:30 a.m. on Wednesday, May 24 to continue the discussion on reconstitution. Those interested in participating in this discussion should call 866-453-0554 (Passcode: 4839418) this coming Wednesday morning at 9:30.

During the morning portion of the meeting, we were able to work through all of the comments that we received concerning the proposed Transition Rules through Section 2.b.2 (i.e., Eligible ODR Projects). ***The next DRG meeting is scheduled for Tuesday, May 30, 2006*** (place to be announced at a later date). I propose that we use the day to ***finalize*** the Transition Period rules. We will pick up the discussion at Section 2.b.3 (i.e., ODR Capacity Value) and work through to the end of the document. Before the end of the week, I will consolidate all comments that I have received to date into a single working document -- we will use this consolidated document as the basis for discussion.

P.S. -- I hope those of you who had to head east on I-90 last Friday were able to find an alternative route home given the overturned methane tanker on the Mass Turnpike.

Regards,  
Henry Yoshimura
