

Stephen J. Rourke
Vice President, System Planning

November 19, 2012

Christopher Meyer
Wholesale Electric Supply
National Grid
100 E. Old Country Road
Hicksville, NY 11801

Dear Mr. Meyer:

On September 12, 2012, a Non-Price Retirement (“NPR”) request was submitted for the resource identified in the table below for the effective date of June 1, 2016.

Resource ID	Resource Name
1051	HAL-BFI

ISO New England Inc. (“ISO-NE”) has reviewed this request pursuant to ISO-NE Planning Procedure No. 10 – *Planning Procedure to Support the Forward Capacity Market* and has determined that there is not a reliability need for this resource and accordingly the NPR is accepted.

This finding was reviewed with the Reliability Committee on November 13, 2012. There was no request for studies to be performed and no objections to the NPR request were raised.

Pursuant to Section III.13.2.5.2.5.3 of the ISO-NE Transmission, Markets and Service Tariff, this resource and its associated market assets will be retired, and the interconnection rights for the resource will terminate effective June 1, 2016.

If you have any questions, please contact ISO-NE’s Customer Support at (413) 540-4220 or custserv@iso-ne.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Stephen J. Rourke", written over a circular stamp or seal.

Stephen J. Rourke
Vice President, System Planning
