

Stephen J. Rourke  
Vice President, System Planning

December 20, 2012

Victoria Lynch  
VP East/Northeast Commercial Operations  
GenOn Energy, Inc.  
1000 Main Street  
Houston, TX 77002

Dear Ms. Lynch:

On October 5, 2012, a partial Non-Price Retirement Request was submitted for the resource identified in the table below, for the effective date of June 1, 2016.

Resource ID	Resource Name
37040	Kendall Steam

ISO New England Inc. (“ISO-NE”) has reviewed this request pursuant to ISO-NE Planning Procedure No. 10 – *Planning Procedure to Support the Forward Capacity Market* (“PP-10”) and has determined that there is not a reliability need for the portion of this resource seeking to retire and accordingly the partial Non-Price Retirement Request is accepted.

As required in PP-10, this finding was reviewed with the Reliability Committee on December 18, 2012, where the need for this resource was discussed. Additionally, ISO-NE received an advisory vote supporting the finding that there is no reliability need for the portion of this resource seeking to retire.

Pursuant to Section III.13.2.5.2.5.3 of the ISO-NE Transmission, Markets and Service Tariff (“ISO Tariff”), the interconnection rights of this resource will be reduced effective June 1, 2016.

If you have any questions, please contact ISO-NE’s Customer Support at (413) 540-4220 or [custserv@iso-ne.com](mailto:custserv@iso-ne.com).

Sincerely,

A handwritten signature in blue ink, appearing to read "Stephen J. Rourke", written over a circular blue stamp or watermark.

Stephen J. Rourke  
Vice President, System Planning
