Dear Mr. Page:

On December 2, 2011, a Non-Price Retirement Request was submitted for Resource 585 – St Albans 1 and 2 for the effective date of June 1, 2015.

ISO New England Inc. (“ISO-NE”) has reviewed this request pursuant to ISO-NE Planning Procedure No. 10 – *Planning Procedure to Support the Forward Capacity Market* (“PP-10”) and has concluded there is not a reliability need for this Resource and accordingly the Non-Price Retirement Request is accepted.

This finding was reviewed with the Reliability Committee on January 17, 2012. There was no request for studies to be performed and no objections to the Non-Price Retirement Request were raised.

Pursuant to the ISO-NE Transmission, Markets and Service Tariff (“ISO Tariff”), this Resource and its associated market assets will be retired effective June 1, 2015.

If you have any questions, please contact ISO-NE’s Customer Support at (413) 540-4220 or [custserv@iso-ne.com](mailto:custserv@iso-ne.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen J. Rourke", written over a circular scribble.

Stephen J. Rourke  
Vice President, System Planning
