ISO New England Inc. (“ISO-NE”) has reviewed these requests pursuant to ISO-NE Planning Procedure No. 10 – *Planning Procedure to Support the Forward Capacity Market* (“PP-10”) and has determined that there is not a reliability need for these resources and accordingly the Non-Price Retirement Requests are accepted.

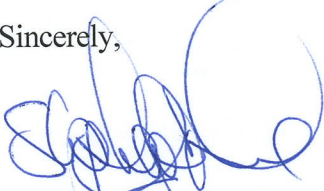

As required in PP-10, this finding was reviewed with the Reliability Committee on December 18, 2012 where the need for these Resources was discussed. Additionally, ISO-NE received advisory votes supporting the finding that there is not a reliability need for those resources seeking to retire more than 5 MW of capacity.

Pursuant to Section III.13.2.5.2.5.3 of the ISO-NE Transmission, Markets and Service Tariff (“ISO Tariff”), these resources, and their associated market assets, will be retired effective June 1, 2016.
