The Honorable Kimberly D. Bose, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, D.C. 20426

RE: **ISO New England Inc., Updated Tariff Sheet Designation in Compliance
With Order No. 614; Docket No. ER10- -000**

Dear Secretary Bose:

In compliance with Order No. 614,¹ ISO New England Inc. (the “ISO”)² hereby submits an original and five copies of this transmittal letter and Tariff sheet to update the designation of Tariff Sheet No. 7013 in order to reflect changes made in filings previously accepted by the Federal Energy Regulatory Commission (“Commission”).

On September 23, 2009, the ISO and the New England Power Pool (“NEPOOL”) jointly submitted in Docket No. ER09-1737-000 tariff revisions extending the Real-Time Price Response Program and Day-Ahead Load Response Program (“September 23 Filing”)³ to be effective June 1, 2010. The Commission accepted the September 23 Filing by letter order issued on October 29, 2009. The September 23 Filing deleted the definition of “Adjusted Capability” from Market Rule 1.⁴ The Tariff sheet effecting this change was designated as 4th Rev Sheet No. 7013.

¹ *Designation of Electric Rate Schedule Sheets*, Order No. 614, 90 FERC ¶ 61,352 (2000).

² Capitalized terms used but not defined in this filing are intended to have the meaning given to such terms in the ISO New England Inc. Transmission, Markets and Services Tariff, FERC Electric Tariff No. 3 (the “Tariff”), the Second Restated New England Power Pool Agreement, and the Participants Agreement. Market Rule 1 is Section III of the Tariff.

³ *ISO New England Inc. and New England Power Pool*, Tariff Revisions Regarding Extension of the Real-Time Price Response Program and Day-Ahead Load Response Program; Docket No. ER09-1737-000 (September 23, 2009).

⁴ Market Rule 1 is Section III of the Tariff.

On October 26, 2009, the ISO, NEPOOL, and a number of other filing parties⁵ jointly submitted in Docket No. ER10-108-000 revised tariff sheets to relocate the definitions provided in Sections II, III, IV.A and IV.B of the Tariff into Section I, thereby creating one consolidated definitions section (“Definitions Filing”). The Commission accepted the Definitions Filing by letter order issued on December 9, 2009, effective January 24, 2010. As part of that filing, 1st Rev 3rd Rev Sheet No. 7013 was submitted showing the deletion of the definitions from Market Rule 1 because these definitions were being relocated to Section I of the Tariff. Because the September 23 Filing was made prior to the Definitions Filing, it did not reflect the relocation of the definitions into Section I of the Tariff.

On April 1, 2010 the ISO submitted in Docket No. ER10-996-000 Reconciled Tariff Sheets for Compliance With Order No. 614 (“April 1 Filing”) to be effective June 1, 2010. The April 1 Filing deleted the definition of “Adjusted Capability” from Section I of the Tariff. That filing is currently pending before the Commission. Therefore, the April 1 Filing deleted “Adjusted Capability” from Section I of the Tariff which, pursuant to the Definitions Filing, includes the consolidated definitions section of the Tariff. Thus, 4th Rev Sheet No. 7013, which was submitted as part of the September 23 Filing, has no purpose anymore, and 1st Rev 3rd Rev Sheet No. 7013, which was submitted as part of the Definitions Filing, should be considered as the effective version of Sheet No. 7013.

To avoid any confusion, and after consulting Commission staff, the ISO is hereby re-designating 1st Rev 3rd Rev Sheet No. 7013 as 5th Rev Sheet No. 7013 and making it effective June 1, 2010. The ISO submits this change to become **effective June 1, 2010**. To avoid uncertainty, the ISO will post the 5th Rev Sheet No. 7013 to the published version of the Tariff on June 1, 2010, subject ultimately to the Commission’s acceptance of this filing. The changes made in this filing are ministerial and merely updates the designation of Tariff Sheet No. 7013 to ensure that it accurately reflects the language accepted by the Commission in prior proceedings as required by Order No. 614.

The ISO submits the enclosed tariff sheet in blacklined (Attachment 1) and clean (Attachment 2) formats for compliance with Order No. 614.

⁵ The other filing parties were Northeast Utilities Service Company, as agent for its operating companies, The Connecticut Light and Power Company, Western Massachusetts Electric Company, and Public Service Company of New Hampshire, and Cross-Sound Cable Company, LLC.

The Honorable Kimberly D. Bose
