Docket No. RD10-13-000

MOTION TO INTERVENE OF ISO NEW ENGLAND INC.

Pursuant to Rules 212 and 214 of the Rules of Practice and Procedure of the Federal Energy Regulatory Commission (the “Commission”), 18 C.F.R. § 385.212 and 214 (2009), ISO New England Inc. (the “ISO”) moves to intervene in the above-captioned proceeding.

I. COMMUNICATIONS

Correspondence and communications regarding this filing should be addressed to the undersigned as follows:

Theodore J. Paradise*
Senior Regulatory Counsel
ISO New England Inc.
One Sullivan Road
Holyoke, MA 01040-2841

* Persons designated for service

II. BACKGROUND

On April 20, 2010, the North American Electric Reliability Corporation (“NERC”) submitted a petition for approval of an interpretation to Requirement R1.1 in Reliability Standard CIP-006-2 - Cyber Security - Physical Security of Critical Cyber Asset. The Commission’s Notice of Filing set an intervention and comment date of May 12, 2010.

III. IDENTITY OF THE ISO

The ISO is the private, non-profit entity that serves as the regional transmission organization (“RTO”) for New England. The ISO operates the New England bulk power system and administers New England’s organized wholesale electricity markets pursuant to the ISO New England Inc. Transmission, Markets and Services Tariff, and the Transmission Operating Agreement with the New England Participating Transmission Owners.

In its capacity as an RTO, the ISO has the responsibility to protect the short-term reliability of the New England Control Area and to operate the system according to reliability standards established by the Northeast Power Coordinating Council (“NPCC”) and NERC. As the Balancing Authority for the New England region (except for the Maine Public Service Company territory in Northern Maine, which is interconnected to New Brunswick), the ISO plays a critical role in ensuring that the region’s bulk power system functions in a reliable manner.

IV. MOTION TO INTERVENE

The ISO moves to intervene in this proceeding. As the entity that plans and operates New England's bulk power system consistent with NERC standards, the ISO has an interest that may be directly affected by the outcome of this proceeding, and the ISO's interests cannot adequately be represented by any other party. The Commission therefore should grant this motion to intervene and grant the ISO full status as a party to this proceeding.

V. CONCLUSION

Wherefore, for the foregoing reasons, the ISO respectfully requests that it be permitted to intervene in, and be made a party to, the subject proceeding, with all rights attendant thereto.
