NOTICE OF EXTENSION OF TIME

(June 28, 2007)

On June 5, 2007, ISO New England Inc. (ISO), filed a second motion for an extension of time concerning the intra-zonal deliverability compliance filing directed by the Commission's Order issued November 8, 2004 in the above-referenced proceedings. On June 9, 2006, a request for extension of time was granted until July 2, 2007. In light of the ISO's filing of revisions to the market rules to implement New England's Forward Capacity Market, as directed by the Commission, the ISO request a further motion of extension of time to allow the ISO to submit a report on or before February 29, 2008.

By this notice, the ISO is granted further extension of time to submit an intra-zonal deliverability compliance filing and is hereby directed to file a report on or before February 29, 2008, on how intra-zonal deliverability should be addressed within the New England markets and the time frame for implementation.
