

To: Planning Advisory Committee

From: ISO-NE Long-Term Planning

Date: August 14, 2026

Subject: Posting of the Final Report on the Preferred Longer-Term Transmission Solution, a Revised July PAC Presentation, and the ISO's Response to Stakeholder Comments for the 2025 Longer-Term Transmission Planning (LTTP) Request for Proposals (2025 LTTP RFP)

This memo serves as the notice of the posting of the final 2025 LTTP RFP report, Longer-Term Proposal Evaluations, and Selection of the Preferred Longer-Term Transmission Solution. The ISO has also posted a revision to the July 28, 2026 PAC presentation reflecting updates made since that meeting. Finally, the ISO has also posted responses to all stakeholder comments received by the deadline.

These materials were posted on the ISO-NE website under the [Planning Advisory Committee](#) materials, as well as under the [Competitive Transmission](#) and [Longer-Term Transmission Studies](#) sections.

Pursuant to Section 16.4(i) of Attachment K, within 30 days of posting the final report (Monday, September 14, 2026), NESCOE may submit to the ISO a written communication: (a) requesting that the ISO terminate the process, or (b) requesting that the ISO continue the process, but specifying an alternative allocation for the recovery of the incremental costs to address longer-term needs beyond those necessary to address any reliability or economic needs included in the longer-term request for proposal(s). If the ISO does not receive a written communication requesting that the ISO terminate the process, the ISO will proceed in accordance with Section 16.5 of Attachment K. The ISO shall terminate the process if requested to do so in the written NESCOE communication pursuant to Section 16.6 of Attachment K.
