

Cluster Study Participation

Submission Guide and Checklist – FERC Order No. 2023

Interconnection customers participating in the **Cluster Request Window (CRW)** must submit a **complete and accurate Interconnection Request during the Cluster Request Window (CRW), which opens on October 5, 2026.**

This checklist is provided to help you confirm that all required items are included in your submission. Please review carefully before submitting your package.

Cluster Study Submission Checklist		
	Requirement	Additional Information/Resources
☐	Selection of interconnection service (amount of capacity interconnection service requested, if capacity interconnection service is requested)	See Cluster Request Window chapter of the <i>Cluster Study Participation</i> recording
☐	Study deposit	See Cluster Request Window chapter of the <i>Cluster Study Participation</i> recording
☐	Commercial readiness deposit	See Cluster Request Window chapter of the <i>Cluster Study Participation</i> recording
☐	Exclusive site control for 100% of the proposed generating facility	See Cluster Request Window chapter of the <i>Cluster Study Participation</i> recording
☐	All technical data required under Appendix 1, Attachment A, and Attachment A-1, as well as ISO-NE Planning Procedure No. 5-6 (to the extent the interconnection customer has not already provided such data)	See Required Technical Data and Modeling Expectations chapter of the <i>Cluster Study Participation</i> recording

 **Note:** Electronic signature pages are acceptable for the CRW itself. Please be sure they are uploaded.
