FEDERAL ENERGY REGULATORY COMMISSION

ISO New England Inc.

Docket No. ER19-470-004

NOTICE OF EXTENSION OF TIME

(September 10, 2020)

On August 4, 2020, the Commission issued an order accepting ISO New England Inc.'s (ISO-NE) Order No. 841¹ compliance filing, to become effective December 3, 2019, with a limited number of revisions to become effective January 1, 2026, subject to further compliance filings.² The Commission directed ISO-NE to file two compliance filings, one within 90 days of the August 2020 Order (*i.e.*, on or before November 2, 2020), and the second within a year of the August 2020 Order.³

On August 31, 2020, the New England Power Pool Participants Committee (NEPOOL) and ISO-NE jointly filed a motion to request an extension of time of the November 2, 2020 deadline to make certain revisions to the ISO-NE Transmission, Markets and Services Tariff. NEPOOL and ISO-NE request that ISO-NE's November 2, 2020 deadline be extended by 35 days, to December 7, 2020. NEPOOL and ISO-NE state that this extension will permit ISO-NE to develop further revisions to address all remaining Order No. 841 requirements set forth in the August 2020 Order in one comprehensive compliance filing, rather than two separate filings, and will also allow for meaningful stakeholder consideration of the proposed compliance revisions through the complete Commission-approved stakeholder process prior to submission of that compliance filing.⁴

Upon consideration, notice is hereby given that NEPOOL and ISO-NE's motion is granted and the deadline for the submission of a compliance filing previously required by the August 2020 Order on or before November 2, 2020 is extended up to no later than December 7, 2020.
