

Oil Inventory Charts

OIL INVENTORY

Total amount of usable fuel oil, in gallons, at New England's oil-fired generating stations which utilize oil for their primary or secondary fuel. This usable fuel oil values includes all usable fuel oil reporting, and do not account for the generator outages or reductions for any reason, including emissions. The maximum usable fuel oil and the percentage of maximum are also shown to clearly represent the status of the New England fuel oil supply.

When used on the following charts, fuel oil types are shown as either Residual Fuel Oil (RFO) or Distillate Fuel Oil (DFO). The RFO category includes #6 Fuel Oil and the DFO category includes #2 Fuel Oil, Ultra Low Sulfur Diesel (ULSD), Kerosene and Jet Fuel.

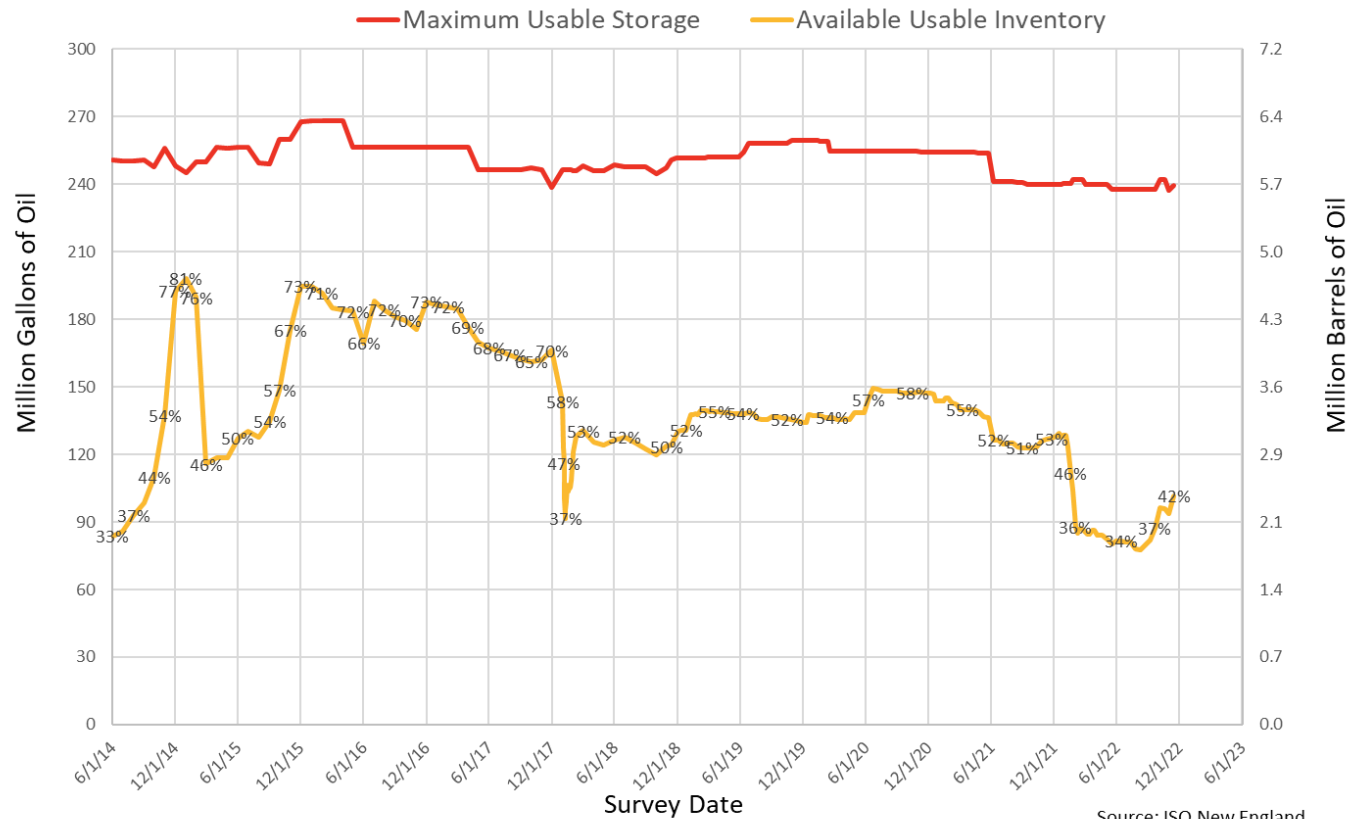

Oil Inventory – 2014-2023

Total Usable New England Fuel Oil Inventory - June 2014 - June 2023

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

Oil Inventory – 2020-2021

Total Usable New England Fuel Oil Inventory - June 2020 - June 2021

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

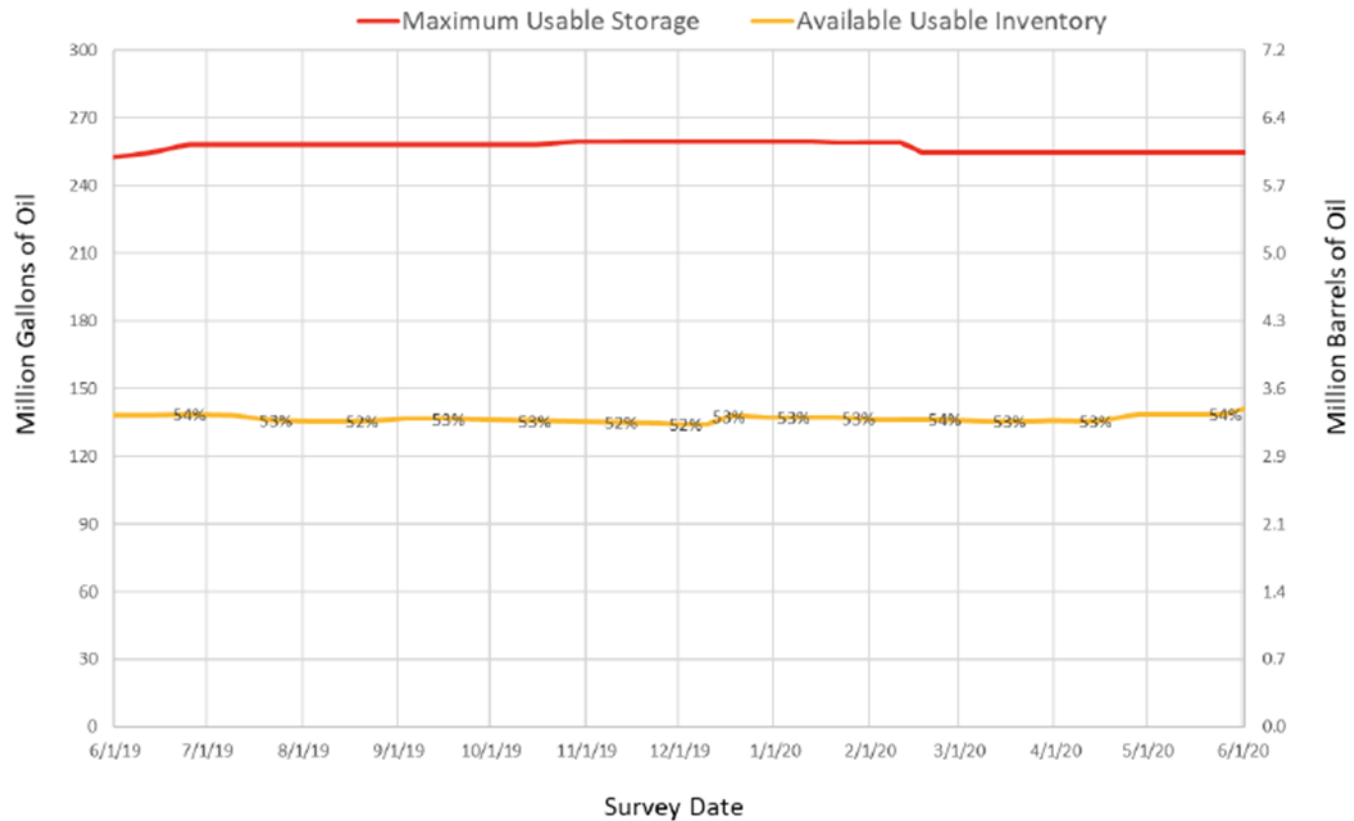

Source: ISO New England

Oil Inventory – 2019-2020

Total Usable New England Fuel Oil Inventory - June 2019 - June 2020

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

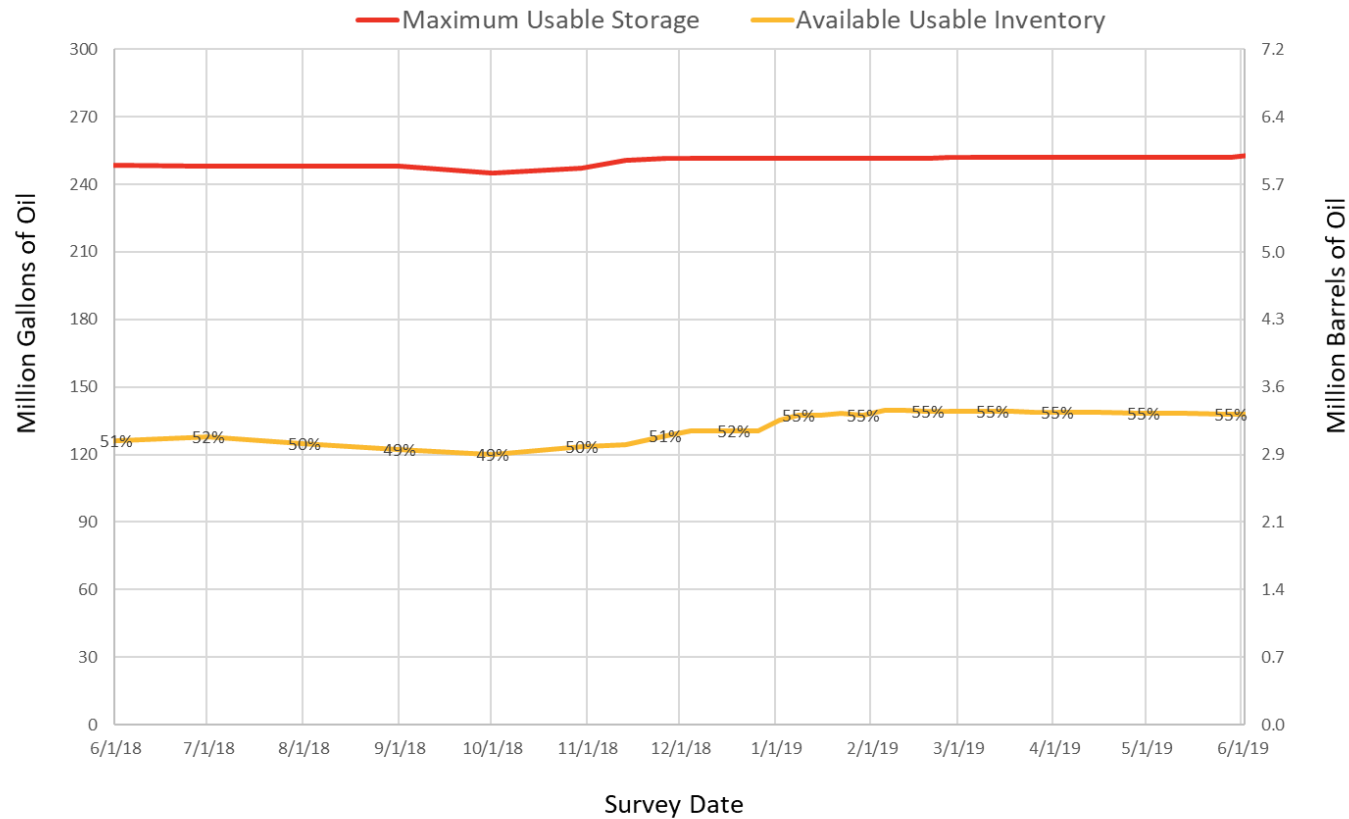

Source: ISO New England

Oil Inventory – 2018-2019

Total Usable New England Fuel Oil Inventory - June 2018 - June 2019

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

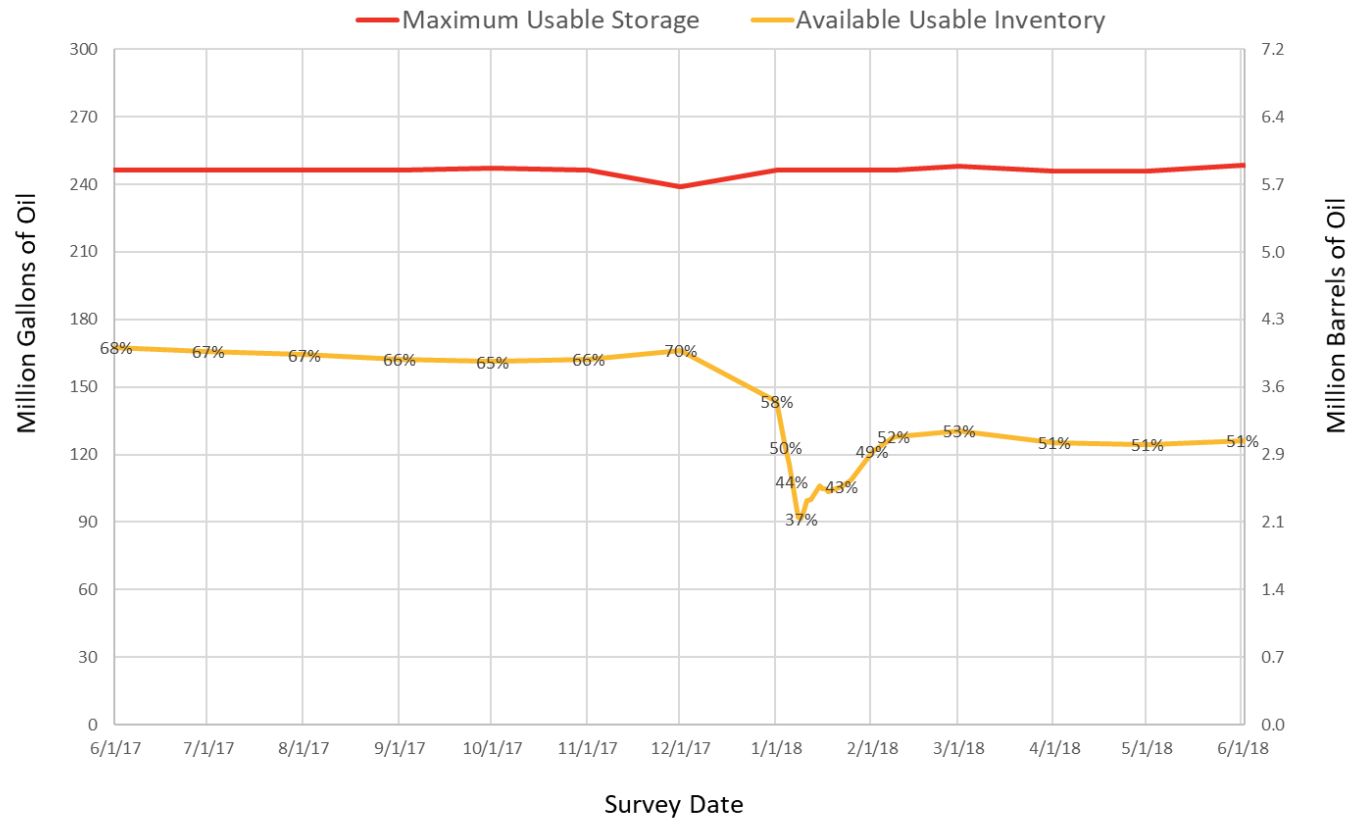

Source: ISO New England

Oil Inventory – 2017-2018

Total Usable New England Fuel Oil Inventory - June 2017 - June 2018

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

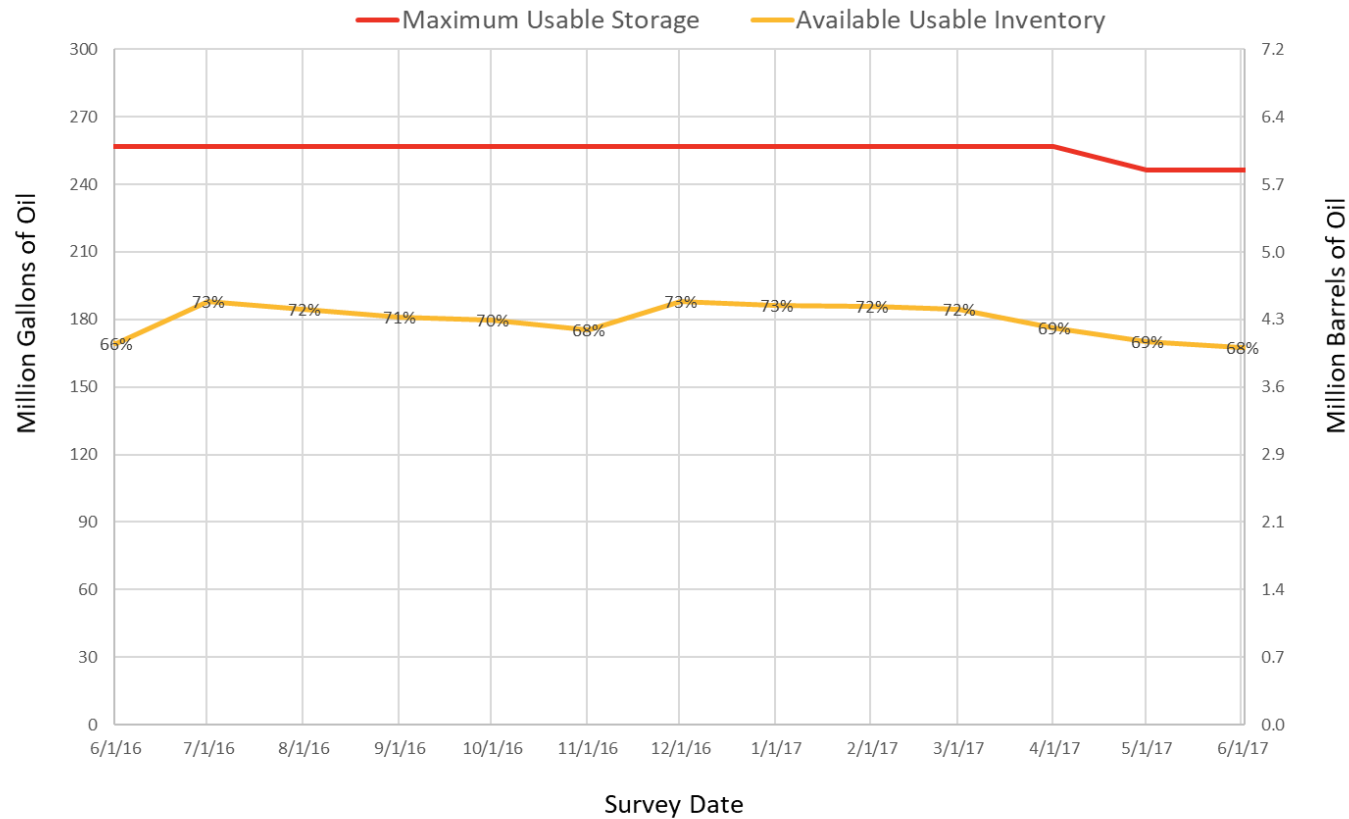

Source: ISO New England

Oil Inventory – 2016-2017

Total Usable New England Fuel Oil Inventory - June 2016 - June 2017

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

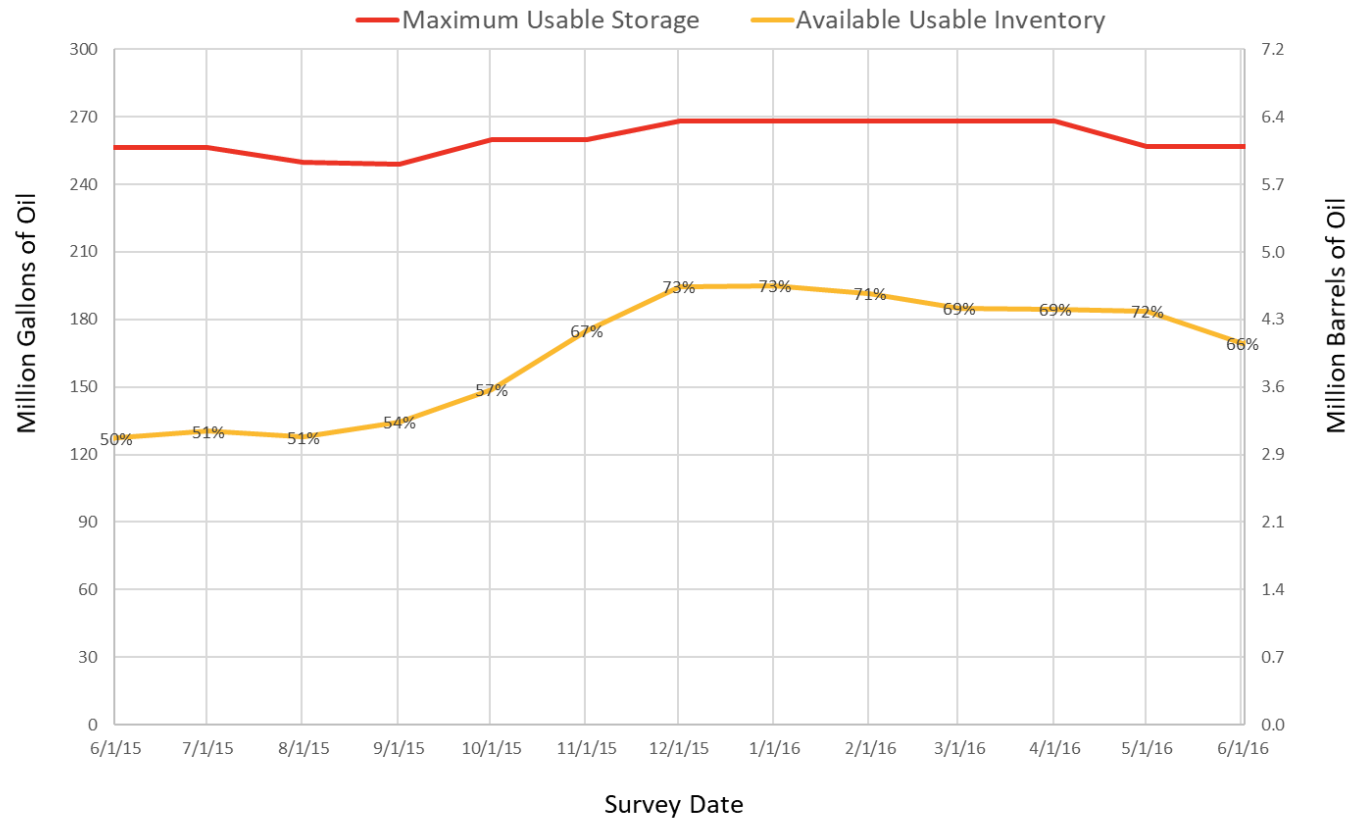

Source: ISO New England

Oil Inventory – 2015-2016

Total Usable New England Fuel Oil Inventory - June 2015 - June 2016

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage

ISO Public

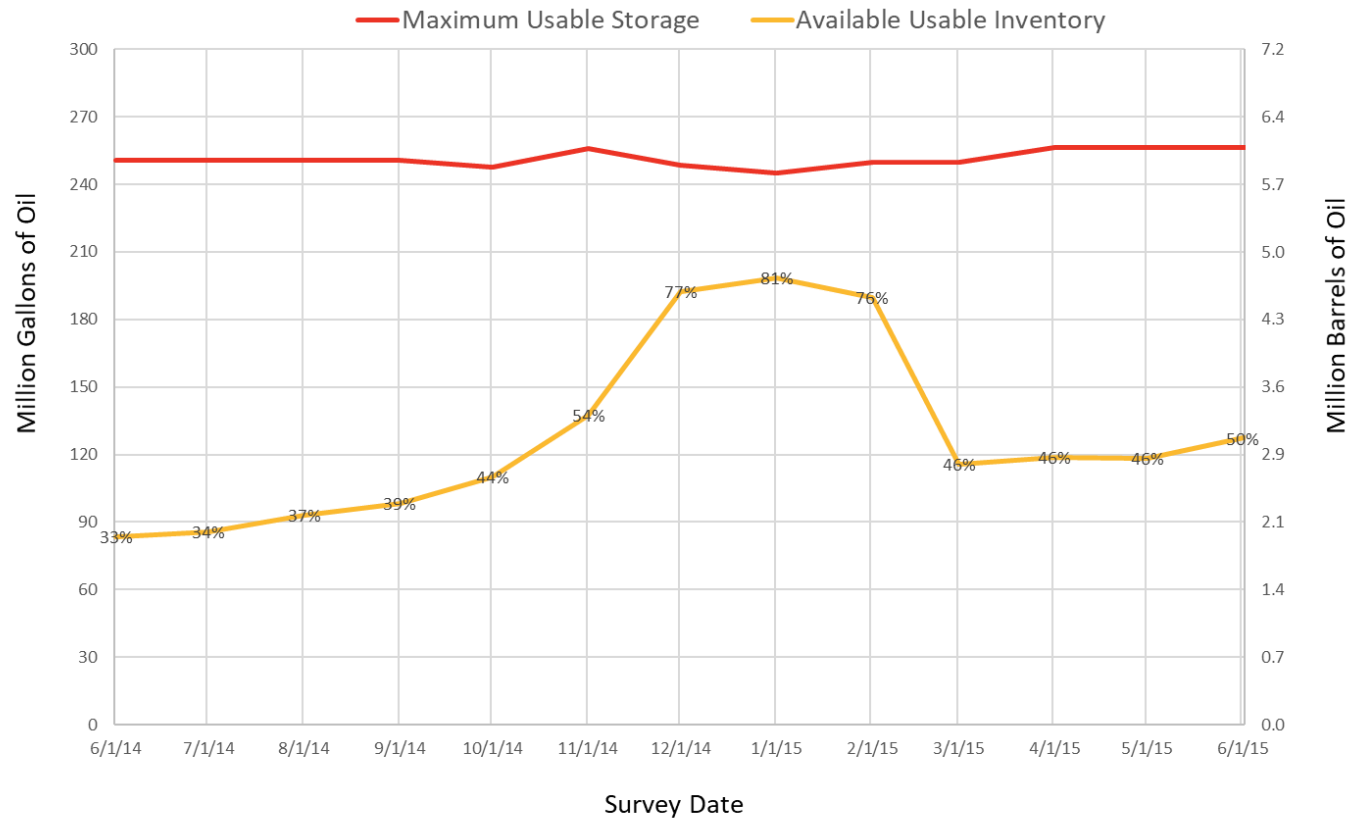

Source: ISO New England

Oil Inventory – 2014-2015

Total Usable New England Fuel Oil Inventory - June 2014 - June 2015

Based on OP-21 Generator Surveys Received from Market Participants

Percentages indicate % of Maximum Usable Storage
