

SP_DMDRSPDLY – Special Demand Response Daily Report – Rev 1

SP_DMDRSPDLY_<customer id>_<settlement date>_<version>.CSV

<Customer Name>

Date: mm/dd/yyyy and Version: mm/dd/yyyy hh:mm:ss GMT

Availability: Available on a daily basis for the current month and prior month until the submittal window is closed for the prior month. Recipients are customers who are the Enrolling Participant for a Demand Response asset and customers who are the meter reader or IBCS Provider for a Demand Response asset.

REPORT COLUMN	DESCRIPTION
Trading Date	Date for which the information was reported
Trading Interval	Specific hour for which the information is reported. Numeric from 1 – 24 (For daylight-saving crossover days: the long day extra hour = 02X, the short day removes hour 02).
Asset Name	Numerical identifier for an asset.
Asset ID	Name of the asset.
Program Name	Name of the Program that the Load Response resource is registered in.
Location ID	Location Identification Number.
Location Name	Name of the location.
Participant ID	Customer ID of the Lead Participant.
Meter Reader Customer ID	Customer ID of the meter reader of the given asset.
Real Time Interruption Event (Y/N)	A flag, in which ‘Y’ indicates a Real Time Load Response Event has been initiated for the specified resource for the specified trading interval.
Day Ahead Cleared Schedule (Y/N)	A flag, in which ‘Y’ indicates that the specified resource cleared in the Day Ahead Load Response market for the specified trading date and interval.
Current Demand Response Meter Reading	Submitted meter reading for the specified trading date and interval. This value could be positive or negative.
Data is Zero (Y/N)	A flag in which ‘Y’ indicates that the data submitted was actually a zero.
Data is NULL (Y/N)	A flag in which ‘Y’ indicates that the data submitted was actually a null value.
