## **Divisional Accounting Overview**

### **Overview of Divisional Accounting Project**

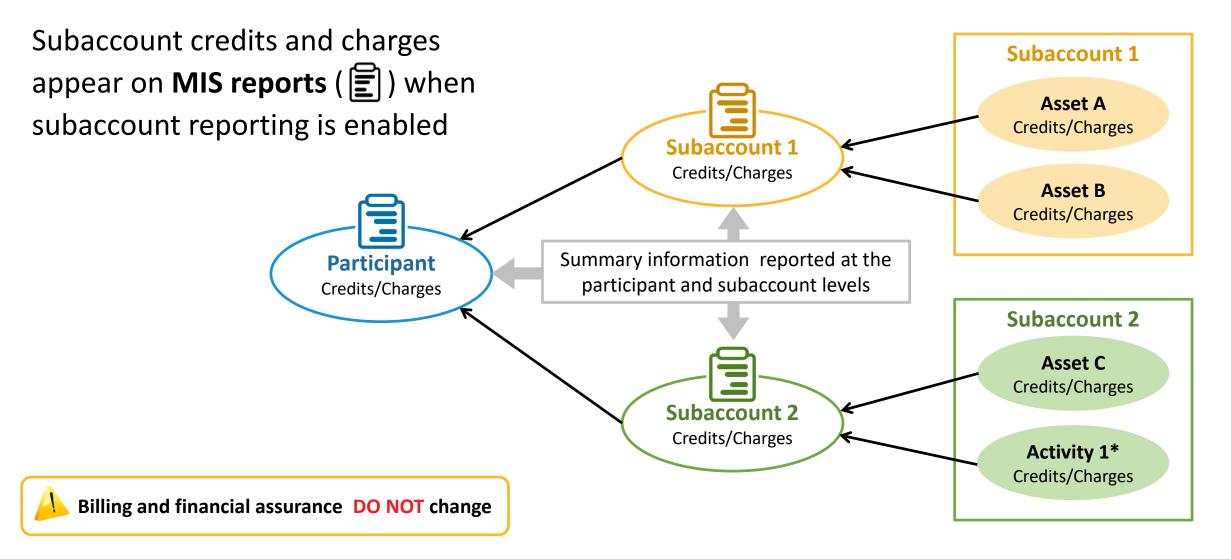

**Divisional accounting is an optional feature that allows customers to assign market activity to a subaccount or division for settlement reporting** 

ISO's settlement system provides one account for each Market Participant Market Participants requested a divisional accounting option to create subaccounts that make sense for their business ISO New England is using a multi-year, phased rollout of software enhancements to fulfill this request

- Provide subaccount level reporting in settlement Market Information Server (MIS) reports
- Enhance MIS reports to report activity by subaccount

\* Bills and Financial Assurance determination remain unchanged
